

City Survey  
Numbering of road side plots  
at the time of

GOVERNMENT OF BOMBAY  
REVENUE DEPARTMENT  
CIRCULAR NO. CTS. 1954  
BOMBAY CASTLE, 15th June 1954

### **CIRCULAR OF GOVERNMENT**

Government has noticed that when Road side plots are not given city Survey numbers, complications as to their ownership arise and disputes are caused between, Municipalities and Government. Government is, therefore, pleased to direct that whenever a city survey takes place, separate city survey numbers should be given to all road-side plots which can reasonably be considered to be not forming part of the road.

2 As regards areas which are already city surveyed, the Collectors are requested to take a review of all such plots and give them distinct numbers in consultation with the Municipality and the officers concerned. In case of large plots, when it is quite clear that they cannot possibly form part of the road, separate numbers even without obtaining the consent of the Municipality may be given, but in doubtful cases it is better to consult the Municipality.

3 These orders will not apply to sites vesting in Municipalities under rule 53, Land Revenue Rules.

By order and in the name of the Governor of Bombay

Sd/- V. C. Thakore  
Assistant Secretary to Government
