

DILRs in CD

Reference : This office No. L.R. 52 dated 12/4/33

Subject : K.J.Ps. in city survey areas.

From the reports received from the DIs, it appears that the practice is almost uniform in all the districts and still it is Noticed that (1) NA cases are not found in the CTS Office as required by the note at page 22 of the ABCD list as the CTSO is a part of DSO for city Survey areas

(2) the abstract of the PR and VF No 1 and II so far as village site and NA area are concerned do not agree To read this, the following instructions shoule be followed

- (a) After receiving orders for correction, the MS shoule send the case without delay to the DSO for correction
- (b) The DSO should give preference to this work, so that N.A revenue may not suffer and there may not be any confusion in accounts,
- and (d) in such cases, which are few, three copies of the KJP shoule be prepared one for the DSO the other for the City SO and the third for the Talathi The case with the CTS copy should be sent to the MS through the Mamlatdar and the KJP for the village should be sent to the Malatdar as usual It should be noted that no KJP will be required where there are changes within the N.A.S Nos (e.g Sub-division etc) for which KJP has been issued All such changes are to be made by the MS and communicated to the Talathi

2 Even then the MS and Talathi should meet by the end of July and reconcile discrepancies if any taking orders if necessary.
