

CR19680881022

Bombay Prevention of Fragmentation & Consolidation of Holdings Act, 1947. (23)
Sub-Division of consolidation blocks for purpose of the Scheme for setting up joint farming societies.

Govt. of Maharashtra, Revenue and Forests Department,
Resolution No. ICH.1366/206782-M (Spl), Sachivalaya,
Bombay-32- Dt. 10th August 1968.

Resolution :

Read.: G.R.R. & F.D. No. CON. 1161/42272-V, dated 29th Sept. 1965.

Resolution : In G.R.R. & F.D. No. CON. 1161/42272-V, dt. 29-9-1965 orders were issued to the effect that when the Commissioner receives an application for permission to sub-divide a consolidated holding under clause (b) of Sec. 31 of the B.P. of F. and C. of Hs Act, 1947 he should grant the necessary permission only in those cases in which the area of each such sub-division that is made is not less than twice the standard area prescribed u/s 5 of that Act. Govt. has now published a scheme (under G.N.R. & F.D. No. ICH 1366/206782-M(Spl) dated 3rd Aug. 1968) for setting up joint farming societies on the farms of sugar companies which have vested in Govt. under the provisions of the Maharashtra Agricultural Lands (ceiling on Holdings) Act, 1961. Clause 4 of this scheme inter alia provides for grant of land to ex-lessors for personal cultivation. While so granting land for personal cultivation, in those villages in which consolidation schemes have been finalised it may be necessary to sub-divide a Gat No. (i.e. allotted holding) and the land to be granted may be less than twice the standard area. In order, therefore, to ensure that no difficulty is experienced in granting land to ex-lessors under the above scheme, Govt. is pleased to relax the orders issued in G.R.R. & F.D. No. CON. 1161/42272-V dated the 29th September 1965, in such cases and to direct that in cases where a consolidated holding is required to be sub-divided for grant of land for personal cultivation under the provisions of clause 4 of the scheme, the Commissioner should grant the necessary permission for sub-dividing the consolidated holding even if the area of such a sub-division is less than twice the standard area.

By order and etc...
